GERARD QUIZZED BY COMMITTEE

Half Million Contributed to Democratic Campaign.

TREASURER'S FIGURES TODAY

Chairman Shaver of Democratic Committee Expects Deficit Unless Contributions Increased Between Now and Election Day—Director of Finance Jones Makes Public List of Contributors to Democratic Fund.

Washington, Oct. 22.—More than one-half million dollars has been contributed to the Democratic campaign fund to date, it was disclosed at the senate committee's investigation here.

James W. Gerard, treasurer of the Democratic national committee, took the stand when the special senate committee resumed its inquiry. Gerard presented a statement of Democratic finances brought up to date, which showed that a total of \$548,440.02 had been contributed to the Davis-Bryan campaign.

Chairman Borah quizzed Gerard regarding the clients of Thomas L. Chadbourne's law firm. Chadbourne, who was one of McAdoo's chief supporters in the New York convention, contributed \$20,000.

Gerard said that John D. Ryan of New York, who contributed \$5,000, was with the Anaconda Copper company in Montana.

"Who is Francis P. Garvin, who contributed \$10,000?" asked Borah. "He was alien property custodian."

"And connected with some litigation with the government?" "Yes."

Gerard said he saw no prospect of collecting the \$1,500,000, as some reports indicated would be raised by the Democrats. "If that amount were contributed we would accept it," he said, "but I believe that \$750,000 will be sufficient to finance the campaign."

Gerard supplied the committee with a list showing that \$29,700 had been turned over by the national organization to state committees. The list follows: New York \$2,000, South Dakota \$2,500, New Mexico \$7,500, Rhode Island \$1,200, Montana \$2,000, Colorado \$5,000, Nebraska \$7,000 and Kentucky \$2,500.

Gerard testified he knew of no contributions from business organizations which might benefit by the tariff.

In reply to Frank P. Walsh, personal attorney for Senator La Follette, Gerard said that there was no organization in the country collecting money and turning it over to the national committee.

Shaver Testifies.
Gerard was then excused and Clem L. Shaver, chairman of the Democratic national committee, was called to the stand. Shaver said he expected there would be a deficit of between \$100,000 and \$150,000 unless contributions increased between now and election day.

"Have any of the funds listed for publicity purposes been paid for newspaper editorials?" Walsh asked. "No," Shaver replied.

Borah asked if the committee had purchased any newspapers in Tennessee, and Shaver replied in the negative. He added he knew of no money paid to speakers.

Jesse H. Jones, Democratic director of finance, in a statement given out in New York, made public a list of contributors to the Democratic national campaign. Contributions totaled \$561,996 up to Oct. 18, 1916. There are no individual contributions of more than \$25,000. Jones and Bernard M. Baruch of New York city were the only ones to contribute \$25,000, the highest single contributions. James M. Cox, the Democratic candidate for president in 1920, was not on the list of contributors.

John W. Davis, the Democratic nominee for president, gave \$5,000, and Charles Bryan, his running mate, \$500. Mrs. Edith Bolling Wilson, widow of Woodrow Wilson, gave \$100. Other large contributors were: Henry Morganthau, New York, \$21,000; C. W. Watson, Fairmont, W. Va., \$15,000; James W. Gerard, New York, \$13,000; Clem L. Shaver, Davis campaign manager, \$10,000; George White, Marietta, O., \$7,500.

Widow Awarded Compensation.
Columbus, Oct. 22.—Mrs. Mary A. Ives, widow of Professor Frederick W. Ives, Ohio State university professor, who was killed in a train wreck at Buda, Ill., while returning from a meeting of the American Society for the Promotion of Engineering Education, has been granted an award of \$6,500 under the workmen's compensation act by the state industrial commission.

DR. PAUL R. HEYL

Physicist of Federal Bureau of Standards.

Dr. Heyl was awarded the Magellan medal for his invention of the earth navigator compass, which was used by the round-the-world aviators.

HOOVER ISSUES ORDER

Radio Casting Station Permitted to Use More Power.

Washington, Oct. 22.—Radio-casting stations will be permitted by the department of commerce to use more power in an effort to overcome static and generally give better service to listeners, under new regulations just issued here. Whereas power now is limited to one kilowatt, stations may use up to five kilowatts, beginning at 1,500 watts and increasing progressively 500 watts at a time up to 1,000 watts, if radio inspectors certify at each stage that the station is not interfering with others. Licenses for increased power will be granted only on an experimental and temporary basis. Radio inspectors will be made the final judges of interference and whether a station will be permitted more power or not.

OHIO EDUCATORS PRESENT PROGRAM

Urge More Special Classes in the Grade Schools.

Columbus, Oct. 22.—More special classes for bright or handicapped pupils is urged by the Ohio department of education, which has started a crusade to break up the "lock-step" in Ohio's grade schools.

The program, which has been recommended to school superintendents of Ohio for consideration, includes, in addition to enlargement of the field of special classes, proposals to extend subject classification to the grades, install a more flexible system of classification and grouping within each grade and provide more flexible treatment of pupils on promotion day.

The department conducted a survey of the school situation in Ohio before submitting the recommendations and in appealing to educators of the state for careful consideration of the proposals submitted recognition is given to the fact that "finances must of necessity be weighed in making changes."

Supporting the program as one deserving of recognition, the department points out that "while consideration of costs rightly causes us to deal with children in groups, still the finest manifestation both of administrative skill and teaching technique is the reaching of each individual with something peculiarly appropriate for him, while the economy of handling large numbers of children together is secured."

Subject classification, permitting a more varied selection of studies in grade schools, is held by the department to be as sound fundamentally as subject classification for high schools. In urging promotion as soon as progress warrants, listed as reclassification, it is held that "the child should not be expected to force himself upon the attentions of teachers and administrators," but that "machinery should be devised whereby pupils who can profit by this type of adjustment may easily obtain it."

STAKES TOTAL \$100,000,000

Suit to Cancel Oil Leases Called in Federal Court.

GOVERNMENT ALLEGES PLOT

Charges of Plaintiff Outlined by Attorney Roberts, Who Refers to the Doheny Loan to Former Secretary of Interior Fall—Counsel For the Defense Promises Exposures—The Opening.

Los Angeles, Oct. 22.—The government suit to break the leases granted M. L. Doheny and the Pan-American Petroleum corporation on the Elk Hills naval reserve in Kern county, Cal., was called in Federal Judge Paul J. McCormick's court.

A formidable array of legal talent was present for the trial, in which the stakes are conservatively estimated at \$100,000,000.

Owen J. Roberts of the government opened the case. He started with an outline of the plaintiff's charges, taking up the history of the lands in question from the time they were withdrawn for naval purposes by President Taft, and then turned to the matter of the Doheny loan to Albert E. Fall, historic because of its place in the senate investigation last spring.

The attorney told how on Nov. 30, 1921, Doheny drew out of his bank account the \$100,000 for Fall; how the note given by Fall was later mutilated, and declared that at any rate it was certainly not "enforceable paper." Shortly after the loan, Fall invested \$100,000 in New Mexico ranch property, Roberts alleged, and within two weeks "had met the requests of the Pan-American Oil company for certain leases in reserve No. 1," which were soon followed by others.

Frank J. Hogan, chief counsel for the defense, declared in his reply that the part played by Albert B. Fall in making contracts with the Doheny companies was "so slight as to be almost negligible, and the part played by Doheny, while not quite so slight, was really unimportant." He characterized as "without foundation" the charge that the executive order transferring the administration of the naval reserves from the navy to the interior department was induced by false representations made to the president by Fall. Equally "baseless," Hogan asserted, was the accusation that Fall and Doheny had conspired to defraud the government. He referred to the \$100,000 exchanged between Doheny and Fall and said that evidence would be adduced to disprove that this was a bribe and witnesses would show that this was purely a personal and friendly loan between friends of long standing.

Concluding, Attorney Hogan stated that "we purpose to expose an almost inconceivable story of the deliberate misrepresentation of known or of easily ascertained facts and the unblushing distortion of the truth which have made as unlike as day and night the case heretofore presented to the public and the case now to be submitted to this court."

AS STONE SEES IT

Daugherty Injunction Hit by Supreme Court's Decision.

Cleveland, Oct. 22.—The Daugherty injunction against striking railway shopmen has been made void by the supreme court decision that railway employees who joined the shopmen's strike in 1922 were entitled to jury trial when charged with contempt of court, according to Warren S. Stone, president of the Brotherhood of Locomotive Engineers, who issued the following statement: "Every good citizen, regardless of whether or not he belongs to a labor union, ought to be gratified that the United States supreme court has upheld the provisions of the Clayton anti-trust act, requiring jury trials for workers charged with contempt of court during industrial conflicts. The decision of the supreme court throws an interesting sidelight upon the illegality of ex-Attorney General Harry Daugherty's injunction against the striking railway shopmen. It was upon the appeal of some of these victims of government by injunction that the decision has been rendered."

Boy Kills Chum.

Cincinnati, Oct. 22.—After snapping a revolver three times at himself, Henry Huffman, 14, snapped it once more at Charles Marshall, 17, his friend and Marshall fell dead, when the fourth cartridge exploded.

JOHN E. MARTINEAU

Democratic Candidate For Governor of Arkansas.

OHIO HAPPENINGS

Charged With Bribery.

Hamilton, O., Oct. 22.—Affidavits charging bribery were filed in the court of Magistrate Morris Y. Shuler against Frank Kinch and Walter Carr, Butler county commissioners. The accused men, who stoutly deny their guilt, each gave \$1,000 bond, pending a preliminary hearing. The two commissioners are charged with having solicited and accepted from Howard S. Coulter, Oxford contractor, a bribe that influenced them in approving the Oxford College Corner road in Butler county, it is alleged.

Charged With Burglary.

Mt. Gilead, O., Oct. 22.—Herbert H. Mayer of Cleveland is held here under \$100,000 bond pending action of the Morrow county grand jury on a charge of burglarizing the Marengo bank last September of \$200 in cash, bonds and stamps. Justice William M. Kaufman fixed the bond when Mayer pleaded not guilty on arraignment. He was brought from Columbus, where he is charged with robbing the Holland Bread company.

Favor Referendum Vote

Cleveland, Oct. 22.—A mass meeting of the street car men's union, decided in favor of a referendum vote on whether to appeal the decision of Common Pleas Judge Close, quashing the 12-cent wage increase granted the union workers last spring by an arbitration board. Judge Close held the award illegal because one member of the arbitration board was not properly qualified to hold his office.

Searching For Slayer.

Cleveland, Oct. 22.—Police redoubled their search for the gunman who shot Patrolman Hahnel, 28, of Shaker Heights, last Friday night, when he was taking them to headquarters for violation of traffic code. A reward of \$500 is offered for the slayers' arrest. It developed that the gunmen had robbed a filling station a few minutes before Hahnel was shot.

Vaccination Order Stands.

Columbus, Oct. 22.—The compulsory vaccination order of the Columbus board of education still stands following a two-hour attack by anti-vaccinationists during a meeting of the board. A motion by Rev. J. J. Fisdall, member of the board, that the order be rescinded failed to receive a second.

Traffic Fatalities.

Columbus, Oct. 22.—Jesse D. Stalter died of injuries received when his automobile crashed into a viaduct partition. He was thrown through the windshield. Fred Villard, 29, bricklayer, was fatally injured when struck by a machine while he was attempting to cross a street.

Injuries Prove Fatal.

Newark, O., Oct. 22.—H. P. Casteel, 67, died here from injuries received when the auto in which he was riding was hit by a train in the East Columbus yards.

Druggist Sentenced.

Toledo, Oct. 22.—Meyer Selzman, druggist, convicted on two indictments, charging sale of denatured alcohol for beverage purposes, was sentenced to two years in Atlanta prison and two years in Dayton workhouse, and fined \$500, by Federal Judge Kilts. Two clerks in Selzman's store were freed on charges similar to those against the proprietor. A third clerk was fined \$150. Selzman's arrest followed the deaths of 18 men from drinking poison alcohol last March.

PLANS CALL FOR HUGE AIRSHIP

Navy Wants Sister Dirigible for the Shenandoah.

DO ASK FOR APPROPRIATION

Will Build Military Airship Twice the Size of the Shenandoah in the Event Congress and Director of the Budget Approve the Project, Would Cost Between \$2,700,000 and \$3,000,000.

Washington, Oct. 22.—If congress and the director of the budget grant the appropriations now being asked by the navy department, a new military airship twice the size of the ZR-3 and Shenandoah will be built by the navy.

It was stated that although the size of the air leviathan will depend upon the money available, present plans call for a capacity of about 6,000,000 cubic feet. The ZR-3 contains 2,400,000 feet. No official announcement of the plans will be made until after the election even if the budget bureau approves the expenditure.

Although the Goodyear company of Akron, which has purchased the Zepplin rights for North America, is understood to be anxious for a naval contract to help build up its infant industry, naval officers want the new ship constructed at the Philadelphia naval aircraft factory where the Shenandoah was fabricated. But the Goodyear company would presumably furnish the special fabric called "gold better skin" for the gas bags, similar to that in the Shenandoah. The Aluminum Corporation of America is expected to get the contract for the structural raw material.

Between \$2,700,000 and \$3,000,000 is the estimated cost of the new monster of the air. Though the Shenandoah, with a capacity of 2,150,000 cubic feet, cost over \$2,000,000, naval engineers claim that its construction was largely experimental and that the relative cost of a second ship could be halved. The fact that the ZR-3 under the treaty terms, through which it was acquired, can not be used for military purposes, is used by the navy as an argument for a sister ship for the Shenandoah.

DONAHEY'S DENIAL

Governor Says He Has Made No Deal With the Ku Klux Klan.

Columbus, Oct. 22.—Governor Donahey branded as a "deliberate lie" the report printed in a Cleveland newspaper that he has entered a deal with the Ku Klux Klan for its endorsement. "I have never solicited the Klan support nor has any such proposition been made to me," Donahey said. "I have never solicited the support of any organization, as such, nor the endorsement of any organization. But I do want the support of all citizens of Ohio who believe in constitutional government and in common honesty in government."

"The Democratic state executive committee will give \$1,000 for any proof substantiating the 'Klan deal' charge," said T. E. Dye, Democratic state campaign manager.

FIVE SLAYERS TO DIE

Police Guard Jail Following Threats to Release Prisoners.

Montreal, Oct. 22.—Twenty heavily armed provincial police are guarding the Bordeaux jail following receipt of threats that five condemned murderers awaiting execution on Friday will be released. Mounted police will be added to the guard and on the day set for the hanging 100 armed guards will line the route of the death march. The men, Tony Frank, Louis Morel, Frank Gambino, Mike Valentino and Giuseppe Serafini, are to be hanged for the murder of a chauffeur during a holdup last April.

New State Park.

Columbus, Oct. 22.—A new state park is being established at the northeast corner of Lake St. Marys, the state highway department announced. The ground comprises 30 acres.

Violin Factory Scorched.

Columbus, Oct. 22.—Fire damaged the plant of the Jackson-Guldian Violin company here to the extent of \$30,000.

Motorist Asphyxiated

Cleveland, Oct. 22.—Fumes of carbon-monoxide gas, generated by an automobile motor, took the life of Paul Link, 31, who was found dead in his garage.

WANTED AT TOLEDO

Motion Picture Actress and Young Millionaire Held at Los Angeles.

Toledo, Oct. 22.—Following their indictment here by a federal grand jury on charges of violating the Mann act, John Raynor Owens, Toledo millionaire, and Miss Irene Dalton, motion picture actress, under arrest at Los Angeles, are preparing for a legal battle to prevent their extradition to this city. Miss Dalton was released on \$5,000 bond and Owens furnished \$7,500 bond for his release. They were scheduled to appear before United States Commissioner Long at Los Angeles on Nov. 20.

Following receipt of news of their arrest in Los Angeles, Federal Judge John Killits wired the California federal authorities to hold Owens under \$10,000 bond and Miss Dalton at \$15,000. The indictments under which the couple were arrested were returned here Oct. 10, both of which were secret. Miss Dalton and Owens were named jointly in one, while the other named Owens alone. Miss Dalton is also named as correspondent in a divorce suit filed here in April, 1923, by Mrs. Owens, which has caused settlement of the Owens estate, valued at between \$2,000,000 and \$3,000,000, to be held up.

As Weeks Sees It.

New York, Oct. 22.—Secretary Weeks declared in a radio address here that the balloting on Nov. 4 will result either in the election of President Coolidge or the election being thrown into congress, and that in the latter event Charles W. Bryan, the Democratic vice presidential candidate would be elected president by a coalition of Democrats and "radical elements" in the senate. The voters of the country, therefore, the war secretary argued, are confronted with a choice between two men.

APPEALS DENIED

Harrison, Chatfield and Beazell Lose in Supreme Court.

Columbus, Oct. 22.—Ohio supreme court refused to review the conviction of Dwight Harrison, former vice president and treasurer of the R. L. Dollings company. Harrison was indicted in the state courts with William G. Benham, president and secretary of the Dollings concern, on charges of embezzlement and making false representations.

The appeal of William H. Chatfield, Jr., and George H. Beazell, both of Cincinnati, former members of the firm of Beazell & Chatfield, brokers, from conviction of embezzlement charges, also was denied by the state supreme court.

Both Harrison and Benham are under sentences aggregating 45 years in federal prisons, as a result of their conviction upon a number of charges of using the mails to defraud, in connection with the collapse of the Dollings company and its subsidiaries.

Anderson Conviction Upheld.
Albany, N. Y., Oct. 22.—The court appeals unanimously upheld the conviction of William H. Anderson, former state superintendent of the Anti-Saloon league, who was convicted in New York county of forgery in the third degree. Anderson is now in Sing Sing prison.

MARKET QUOTATIONS

CHICAGO, Oct. 22.

Cattle—Top steers, \$12.70; bulk of sales, \$8.50@10; stockers and feeders, \$5.50@7; calves, \$9.50@10.25.

Name Is Misnomer

So-called camel's-hair paintbrushes are not so named because they are made from hairs out of the camel's skin. They are made from squirrel's fur and were first made by a man named Camel, whose identity has been completely lost for many years.

Tin Cans Bad for Plants

Tin cans should not be used as containers for growing plants. Besides being unsightly, the cans rust and kill the tips of the tender roots. Occasionally fine plants are grown in tins, but they would have been better if grown in pots.

Trustful Doris

"Your husband is wild about you, isn't he?" asked Phyllis. "Yes," replied Doris; "he raves about me in his sleep, but the poor absent-minded fellow nearly always calls me by the wrong name."

GET READY NOW

For Baby and Comic and Characteristic Parades of the Big Show

Instructions for those who expect to take part in the BABY parade and the COMIC and CHARACTERISTIC parade.

Both parades will form on the west end of Pinkney street.

The Baby parade will start at 2 o'clock Thursday afternoon. The Comic and Characteristic parade will start at 8 o'clock Friday night.

Entry blanks can be secured from Mrs. E. S. Roper for the Baby parade and of Mrs. J. C. Rader for the Comic and Characteristic parade or at the office of The Citizens Telephone company for either one.

Get your entry blank at once so you can have them filled out properly and ready to present to the chairman just before the parade starts and you will be given a number and placed in the proper class.

Entries will be received up to the time of judging provided you have taken part in the parade.

The chairman will be located at the west end of the automobile tent on Pinkney street, one hour before the parade starts. Come early so you can be properly placed as the parade will start promptly on stated time.

In the Comic and Characteristic parades masks will be permitted in the comic section but no masks will be permitted in the Characteristic section.

For any further instructions call the chairman. 21octd3.

Adobe Bricks

"Adobe" is a name applied to sundried bricks made from any suitable material which hardens on exposure to the sun. Often such bricks are made of turf and straw. This material can be used in very dry climates only.

Title Conferred by Pope

The title of Defender of the Faith, which English rulers use as one of their titles, was conferred in 1521 by Pope Leo X on Henry VIII in recognition of Henry's defense of the seven sacraments.

A Squirrel Mystery.

A source of food for the gray squirrel in the winter is in the pine and hemlock cones. These are discovered by burrowing into the snow and making a series of tunnels beneath the surface. The ground beneath a pine or hemlock tree is fairly well covered with cones in the fall, and this the squirrels know, but they never make the mistake of burrowing beneath any tree but a pine or hemlock. They eat the seeds that are at the base of each scale of the cone. And how do they get at these seeds? Did you ever try to extract them yourself?

Real Riches.

He who has fortune in love and truth and beauty is entitled to be called rich. Time and change and adversity have no power upon them. They are the only things a man can take with him when he goes. In the process of acquiring them they become part of him inseparably. He who has them "wears his commendation in his face," for it may be real as he passes that his converse is with the higher and finer things and his daily walk is on the plane where the noblest meet and greet familiarly. Philadelphia Public Ledger.

Trimming Applied in Lavish Manner

Paris Designers Use Ornaments and Garnitures in Large Variety.

Trimming, declares a fashion writer in the New York Times, will have a vogue this season. Some of the leading Paris designers are applying it lavishly, and trimmings, ornaments and garnitures in large variety are shown in the best shops. Wide bandings on which are applique or embroidered bold designs in vivid colors, and metal studded with brilliants or colored stones will be seen on afternoon and evening gowns and wraps.

In girdles, ornaments and motifs in many forms are shown entirely new patterns in the workmanship and the flashiest effects. They are made in large medallions, deep points, bandings, fringed ornaments, in rhinestones and pearls in numberless original combinations.

A graceful trimming in brilliants with points of cut jet is shaped like a deep oval bertha and forms the finished top of a black velvet gown in stunning fashion. No other touch of trimming is needed to give this dinner gown a rich appearance.

On another, a Vionnet model in chiffon for dancing, the godets of the flaring skirt are outlined with every narrow trimming, a single row of rhinestones. There is a separate belt of the same jeweled banding an inch wide.

In trimmings for frocks among the styles from Paris, an evening gown to be made of chiffon, satin, crepe or any other soft material in pale flesh color will have two large ornaments, one at each side of the belt in front. These are in several shades of orchid, with a silver thread running through the pattern and forming something in the shape of a giant wild rose. On another model, a dancing frock from an important designer, are two large, flat, round ornaments, one at the waistline, the other just at the hip where the drapery is slightly lifted.

These decorative points are of the very latest embroidery, a blending of several colors in different materials, chenille, wool, silk floss and metal thread. The pattern is ultramodern, almost cubist in character, and the colors are usually very bright, in daring combinations and primitive contrasts.

An ornament that is especially suitable for evening dress has a touch of ostrich combined with this new embroidery, with ribbon or rhinestones, and ostrich is seen more and more in large motifs, light as thistledown, and in some way made sparkling with metal or jewels to form a high light on an airy dancing frock.

A novelty in the trimming of shoes is the little butterfly bow. It has become so popular as a finish to all the low shoes now fashionable as almost to supplant the buckle. A bow of ribbon is seen on the latest and smartest low shoes, particularly the tie and the pump, serving as a practical means of tying the low oxford, which is now considered most chic in the short vamp model.

Now that the comfortably heeled shoe is style, this is quite practical, and the tied bow of grosgrain ribbon serves both as support and ornament.

Jolt for the Doctor.

Drink sour milk and eat potato peelings, advises Doctor Boynton of Bellingham, and live long lives; but that is what does not and does not bring it. —Portland Oregonian.

Bracelets and Bangles Not Worn in Numbers

Bracelets and bangles are no longer worn in wholesale numbers. It is the newest fashion to wear but one bracelet, and that one of significance. The idea is repeated from an old style, that of wearing a pair of matched bracelets, or one quite wide and designed to express the individual style of the wearer. Treasure chests are being searched for quaint old bits, among which are bracelets of gold finely chased and enameled and set with precious stones; lovely old twisted and braided circlets, and bands that were ornamented with painted medallions, cameos and miniatures.

Dozens of narrow jingling bracelets of gold or silver or platinum, glass or quartz that covered the arm from the wrist almost to the elbow are now passe, and the one bracelet important enough to form a conspicuous feature of the costume is the latest fad.

Miss Sophronia Crist Passed Away at

Home of Brother Tuesday Evening.

Miss Sophronia Crist died at the home of her brother, W. E. Crist, 501 North Court street, Tuesday evening at 7:30 o'clock after an illness of over a year. Her death was due to old age.

The deceased was the daughter of Nicholas and Susan Smith Crist, and she was born in this city October 5, 1841.

Miss Crist was a member of Trinity Lutheran church.

She is survived by one brother and two sisters. They are W. E. Crist and Mrs. Milt Morris, of this city and Mrs. Caroline Howard of Columbus.

The funeral services will be held at the home of W. E. Crist Thursday afternoon at 3:30 o'clock. Rev. G. J. Troutman will officiate. Interment in Forest cemetery.

MEETING OF GRAIN DEALERS.

A group meeting of grain dealers in the territory bounded by Portsmouth to Columbus and Lancaster to Wilmington met Tuesday evening at the Elks club.

The members were banqueted to a chicken dinner in the club rooms at 7:30 o'clock. Col. C. E. Groce of this city, presided as toastmaster.

During the banquet Miss Helen Maion sang several vocal selections. She was accompanied by Miss Abbe Mills Clarke. Covers were laid for fifty people.

Miss Burdie Weaver and Mrs. Olive Johnson were the caterers.

Caddy Miller's Hat Shop.

AMUSEMENTS

"The King Wild Horses," the Pathe picture said to be the most sensational, amazing and unique drama ever filmed, is showing for the first time today at the Met theater, remaining until Thursday. Produced and written by Hel Roach, it depicts the romance of an untamed stallion which role is portrayed by an equine find of Mr. Roach—a really unmanageable, dangerous horse that was chained in his stall when purchased by Roach.

The story commences with the efforts of a cowboy (played by Leon Bary) to capture this magnificent creature of the wilds. He glories in pitting his man's skill against the horse's cunning. Days and days the cowboy keeps on his trail, pursuing him tirelessly, relentlessly, until at last, in The Black's unruly heart, there stirs a sense of respect, almost admiration, for his pursuer—but still he runs away!

Then comes the forest fire—stiffing smoke, roaring flames, cracking under brush, terrific heat! And fear for a horse fears nothing so much as fire. It overcomes his fear of the man, who now seeks, not to capture the wonderful creature, but to save him.

These forest fire scenes, taken during the conflagration that devastated thousands of acres of California timberland, promise to be spectacular as well as sensational. In addition to Leon Bary the cast includes Edna Murphy, Charles Parrott, Pat Hartigan and Sidney DeGrey. Fred Jackman directed.

BOY KILLED

Russell Snodgrass, 13, Accidentally Shot Himself Monday Afternoon.

Russell Snodgrass, the thirteen year old son of Mr. and Mrs. Henry Snodgrass living two miles south of Commercial Point on the Jerry Williams farm was accidentally shot in the left groin Monday afternoon while playing with a shot gun, which was supposed not to be loaded and died from the effects of the wound an hour and a half later.

It seems that he and his brother, Paul, had returned home from Commercial Point where they attended school and in the absence of their parents, secured a gun and in some way it was discharged and the full load entered the boy's body. The arteries were lacerated and he bled to death.

The younger brother hunted up a neighbor, George Adkins, and told him what had happened. The latter called Dr. F. E. Ginder, of Darbyville, and when he arrived, the child was beyond medical aid.

He is survived by his parents, one brother and four sisters.

The funeral services will be held at his late home Thursday. Interment at Kingston.

AT THE COURT HOUSE

Prisoner Sentenced.

Samuel Brooks, arrested a few weeks ago on the charge of having liquor in his possession, plead guilty to the charge in probate court and was given a fine of \$350 and costs which were paid and he was released. Barton Walters represented the defendant.

GOOD DISPLAY

J. E. Poling, Taxidermist, Has Exhibit at Circleville Hardware Co.

In the show window of the Circleville Hardware company is one of the best displays of the taxidermist's art that has been exhibited in this city for some time and is worth your while to give it the once over.

A full sized red fox, squirrels, wild duck of several species, pheasant, owl and skunk, the little wood pussy, whose odor is rather offensive to the olfactory nerves are all there. The last named has its foot caught in a trap. Every thing is true to life and one would think that Mr. Poling had made a study of the life and habits of animals and birds to stage and assemble his collection so realistically. The arrangement is made natural by having the birds perched on limbs of trees and the ground work is covered with leaves and moss. The latter was brought from its native heath, down in the hills. The little village of Tarlton can well feel proud of its taxidermist, J. E. Poling.

HARD TIME SOCIAL.

A Hard Time social will be held in the Orient school house Thursday evening, October 30, under auspices of the Orient Ladies' Aid. Come, have a good time and don't forget to come dressed as Hard Times or a fine will have to be paid.

BEAUTIFUL PROCESSION

School Parade Will Surpass Anything Ever Witnessed in Circleville.

Spring, Summer, Autumn and Winter, Feast Days and Holidays—Pilgrim Fathers and American Indians—Domestic Science and Manual Training.

The school parade for our 21st annual Pumpkin Show promises to be a spectacular affair. The outline given in Thursday's Daily of what the grade schools are doing gives us an idea of the immensity of the undertaking of the teachers assisted by some mothers have on hand.

This parade will surpass in beauty anything ever witnessed in Circleville. Imagine, if you can, over 400 children portraying Spring, in all its beauty. The tiny tots dressed to represent Easter. Then butterflies and bees, next larger or third grades, tulip time. Fourth grades are April showers and how could we overlook April showers in spring, also March winds, a very necessary thing in spring and May day that beautiful time, both by fifth grades. The sixth grades represent Decoration day; Bluebirds and robins, maybe there will be a white robin. Next comes St. Patrick's day, spring cleaning and iris, all by the grades. Then comes summer in which over 200 children participate. Heralds of summer coming first followed by the float on which is represented Aurora, the goddess of the morning and Apollo driving the chariot of the sun across the sky, surrounded by the hours, gowned in colors of the glowing dawn and last a rainbow that sign which God gave that Noah in almost the beginning of time would know that the waters had stopped falling, is presented by pupils from first to sixth grades.

The High street school of 215 pupils represent Autumn. "The melancholy days." But autumn is also the prettiest time of the year. On our float we will see Jack Frost painting the leaves all the shades of yellow, orange and red that they wear at this time and he will be assisted by brownies and some of his little animal and bird friends. Then the babes of the first and second grades will represent pumpkin and ears of corn. The third grades remind us that Halloween comes during this season with its witches, brownies and ghosts.

The Pilgrim fathers and Indians of the fourth grade call to mind the great feast of Thanksgiving. Then we have chrysanthemums, the beautiful fall flower. Farmer boys, sailors and Christopher Columbus, that greatest of all discoverers, who made this spectacle possible by his refusal to be turned from his course when he knew he was on the right.

Now comes Winter, represented by 142 pupils of the Walnut street building. This float shows King Winter ushering in a snow storm and the little ones in the first grade are the snow flakes. Then we have the most beautiful feast of the year, Christmas. The third grade pupils will represent the star of Bethlehem and the Wise Men who called to offer gifts to the new born infant, the Christmas fairies and Santa Claus, the Shepherds, who watched their flocks near the birthplace of our Savior and who were the first to adore Him is represented by the fourth grade pupils.

Fourth grade pupils also portraying Father Time remind us of the closing of the old year and also the time for New Year resolutions.

Then we have the feast dear to the heart of young lovers, St. Valentine's day with Cupids and Queen of Hearts. The father of our country is not forgotten as his birthday is represented by the second grade pupils with small representatives of George Martha Washington.

The freshmen will have a patriotic float showing Betsy Ross making the first flag and the freshies following dressed in appropriate colors and forming a living flag.

The Manual Training department will have two floats showing drawings and giving a display of their work also showing them at work as will the domestic science department. Both of these floats will be equipped with ranges and necessary kitchen utensils. These will be followed by the girls in their white caps and aprons.

The physics department's float will have a fully equipped radio and athletics will be represented by the football team in their toggery, who will advertise the game to be played that afternoon between Circleville Hi and Portsmouth Hi.

Pupils operating typewriting, mimeographs and busy on their bookkeeping show that our school has a commercial department.

Circleville should be proud of the many talented musicians who received their first training in our school. We have Wittich and Seyfert, the Weavers

and Miss Renick, all of whom are holding lucrative positions. This department will have a very beautiful float decorated in the red and black of the high school colors in which about 25 boys and girls will ride singing class songs and giving the cheers. The Sophomores and Juniors will be represented in appropriate walking formation and the Seniors will ride wearing cap and gowns.

Then we have the county schools of which we have received reports from the following townships; Walnut centralized which includes Madison township, high school pupils, Pickaway township, Jackson and Washington townships.

The Pumpkin Show committee wishes the board of education, teachers and mothers to know how much they appreciate their cooperation in making this Pumpkin Show grander than any of its predecessors.

PUMPKIN SHOW DANCE.

Wednesday, Thursday Friday and Saturday nights; also Saturday afternoon at Circleville Athletic club. 22octd5.

FRESH FISH.

Blue pike and pickerel.

J. B. VOLL

Franklin and Washington Sts. 22octd2.

RIDES FOR PUMPKIN SHOW.

Ehring's attractions are again furnishing the rides consisting of Carrousel, Big Eli Ferris wheel and the Whip for the 1924 Pumpkin Show.

The Carrousel as usual will be located at the court house corner, and Big Eli Ferris Wheel at Court and Main streets and the sensational ride, the Whip, in front of the C. A. C. building.

This is the 16th consecutive year that Ehring's attractions has been furnishing Circleville with these amusements and each year the patronage has increased, due no doubt to the class of machines furnished, the manner in which they are operated and the personal interest shown by the management in treating the public courteously. 21octd2.

PUMPKIN SHOW

CANDY EXHIBITORS.

You may bring your candy to Joseph's store as late as Thursday evening at 8 o'clock. Plates can be had in the store free.

Candy will be judged early Friday morning. As there are four different entries this season and also a fourth prize added the exhibits should be much larger than before.

Let's make the candy display a big feature. 21octd3.

Chairman.

PARK YOUR CAR

When attending Pumpkin Show inside the new high school fence. A watchman there all the time. All day and night 25 cents. Cheap insurance. Think it over. No parking Friday p. m., as all space must be reserved for large football crowd. 22octd3.

The high ride, the Ferris Wheel. 21octd2.

CHARLES H. LEWIS

Needed Compass Change

The United States Geological survey says that a compass should be changed about one degree every 20 years. This change is necessary, as the magnetic pole toward which the needle of a compass points and the North pole are not the same. The magnetic pole shifts, and therefore the change must be made in the compass to make up for the shift of the magnetic pole.

Bringing Up Baby

Six-year-old Walter's patience was at an end. "Mother," he demanded, "don't you want baby sister to be a good wife when she grows up?"

"Of course, I do, dear."
"Well, then, why don't you start her right? You keep giving her my playthings just because she's a girl an' littler'n me, but you're a lot littler'n daddy, an' yet every night when he comes home you jump up out of the armchair an' get his slippers and his magazine an' everything."

Before his surprised mother could frame a reply, Walter swooped down and tore his favorite toy from the hands of the screaming baby.
"She'll be a terrible wife if we don't begin to train her," was his parting shot as he strode from the room, his treasure under his arm.—Boston Transcript.

Deception Justified

"What in the world did you mean by introducing me to Mr. Brown as your aunt?" inquired the mother with some warmth. "Forgive me, mother," said Dorothy, "but Mr. Brown seemed to be on the point of proposing and I felt that it would not do to take any risks. He has a strong prejudice against mothers-in-law."

Least He Could Do

"Do you stand back of every statement you make in your newspaper?" asked the timid little man. "Why—er—yes," answered the country editor. "Then," said the little man, holding up a notice of his death, "I wish you would help me collect my life insurance."—Capper's Weekly.

Lightweight Church Bells

Church bells are traditionally heavy, but the new bells in a chapel near Boulogne, France, weigh one-third of what bronze bells weigh, being cast of an alloy of aluminum and copper, which insures them against rust or splitting, and which permits of a much lighter steeple frame than is usual.

Police Dogs Not Part Wolf

Police dogs are often supposed to be descended from wolves, but this is not so. They are directly descended from peaceful German shepherd dogs. The fact that there have been no wolves in France since 1833 makes the theory that they are part wolf absurd, scientists say.

Vegetable Sponge Edible

In Algeria an extensive industry has been developed in the cultivation of what are known as vegetable sponges. The chief market for the product is Paris, although specimens are not uncommon in the United States. They have come into extensive use for the toilet, the bathroom and various other domestic purposes.

Prior to maturity the fruit is edible, but when the stage of ripeness has been passed the fibrous matter becomes separated from the pulp and forms a tough, spongy mass. The material is prepared for the market by being bleached in a weak lime bath.—Grit.

Good

Work and Workers.

There is not so much difference in the world's work as in the world's workers. It is not so much difference what we are doing—so long as it is useful—that counts as the way in which we are doing it. The work of which we are ashamed we either have no right to do, or we are not doing it as we should.

"BOB'S BUNKEM" IN TOTAL COLLAPSE WHEN HIS CHARGES ARE ANALYZED

Appeal to Class Prejudice by Accusing American Business of Monopolistic Conspiracy Not Supported by Facts.

By Wm. M. BUTLER,
Chairman Republican National Committee.

Washington.—Senator LaFollette, opening his campaign with a speech on Labor day, pictured the American people as being in a terrible plight, and offered a bill of particulars. He also proposed his remedies. His speech was an appeal to class prejudice. The "facts" upon which his speech was based have been subjected to careful scrutiny, and his allegations do not stand up.

He said a gigantic monopolistic conspiracy of American business is sucking the blood, morals and pocketbooks of the American people. The truth is the Republican administration has fought monopoly and preserved free competition, as proven by the actual price of necessities. Examining Mr. LaFollette's speech in detail, how does it square with the facts?

1. "Exactly what do we mean by the 'system'?" asked LaFollette, and answering his own question, he said: "We mean the combination which rules the coal industry of this country and which fixes the price of coal to the consumer."

The fact is that in the bituminous coal industry, which comprises 85 per cent of all coal production, there is no single corporation or group which controls more than 5 per cent of the total output. Eight thousand independent operators are in active competition, half of them selling coal for less than cost; bituminous prices are lower today than in 1916, though wages are 100 per cent above pre-war.

2. He said: "We mean the banking combine which, through its control of the federal reserve board, arbitrarily fixed interest rates and controls credit in the interest of the big monopoly system. It inflated four years ago a policy of deflation, causing a shrinkage in farm prices since 1920."

deflation was inaugurated and carried out under the Democratic administration. Interest rates were at once lowered when the Republican administration came into office. Furthermore the Republican administration appointed a farmer on the federal reserve board and created the intermediate credit system for the farmer's special benefit.

Mr. LaFollette forgets that there has been a steady increase in the prices to the farmer, as well as an increase in the purchasing power of his crops, ever since the Republican administration reversed the policy of the Democratic administration, which placed the farmer in the economic situation that he was in in 1921 and later. This is shown by the following index numbers of the average price of agricultural products and the index numbers of the purchasing power of the products as published by the Department of Agriculture:

Wholesale Prices for Farm Crops.

Year	Index	Purchasing Power
1913.....	100	100
1921.....	109	67
1922.....	118	69
1923.....	139	72
July 1924.....	155	83

3. Mr. LaFollette said: "The consumption per capita of such a staple food as bread is very much less than it was a few years ago. . . . It means that there are many people in the United States today who are hungry for bread."

Bread consumption has been decreasing in the United States in recent years, but Mr. LaFollette distorts the reason. Every nation decreases its consumption of bread when it increases its consumption of meats, fruits, sugar and other palatable foods demanded by a higher standard of living. Senator LaFollette attempts to conceal the increased consumption of other agricultural products. Under the low standards of living in Europe the consumption of breadstuffs amounts to 60 per cent of the total diet as against 20 per cent in the United States.

The following table shows the increase in consumption of foodstuffs per capita in the United States in important lines compared with wheat:

Average Annual Consumption in Pounds Per Person.	All Meats, Incl.	Pork, Incl.
--	------------------	-------------

Year	Wheat	Sugar	Lard	Beef	Lard
1912-14.....	319.2	85.9	156.9	66.0	82.9
1923.....	308.0	106.3	183.4	70.4	107.8

4. He said: "We mean the meat-packing combination, which fixes the price of the products of the farm," etc.

There are about 700 independent competing packers in the United States. Three of the "big five" to whom Mr. LaFollette refers, have had to entirely refinance their business due to enormous losses; and one is in the hands of a receiver. The five have earned less than 1 per cent on goods handled during the past four years.

5. Mr. LaFollette said tariffs must be reduced. He attacked the whole Fordney bill and demanded all-around reduction.

Take the tariff off dairy products and you destroy that industry; take the duty off wool and you destroy the sheep industry; take the tariff off California fruits and nuts and the American growers are at the mercy of the Mediterranean growers. And so on down the list. Take the tariff off manufactured goods and the American workingman is at once in unrestrained competition with the sweated labor of Europe.

Mr. LaFollette said: 6. "The farmer in this country receives an average of only 40 cents of the dollar paid by the city consumer for farm products while the farmer of Denmark receives an average of 80 cents."

He neglects to state that the farmer in Denmark is within 125 miles of all consumers while in the United States there is an average of 1,200 miles between farmer and consumer.

7. He said: "We mean the sugar monopoly," etc.

The wholesale price of sugar at New York since the 1922 tariff was passed has averaged a little over 6 cents a pound; the average, for three years before the war was a little over 4 1/2 cents; an increase of 30 to 35 per cent. The average increase in the price of all commodities has been 45 per cent. Seventy per cent of Cuban sugar (our chief supply) is controlled by four or five groups which operate on foreign soil beyond reach of our Sherman anti-trust law. But for the competition of American beet sugar, these four or five groups would control absolutely the price of sugar in the United States. The Republican tariff has preserved and fostered the beet sugar industry. The Cuban groups want to destroy the tariff on sugar; so does Mr. LaFollette.

8. He said: "We mean the transportation monopoly," etc.

The railways of the United States during the last four years have never earned more than 5 1/2 per cent on physical valuation, and on an average have earned less than 4 per cent. There cannot be much extortion in these earnings. Remember, labor comprises 70 per cent of railway operating costs. The average railroad wage is now 30 per cent above pre-war, yet the railways, by great economies of operation, have held rates on agricultural products to a point only 45 per cent above pre-war level. Agriculture needs a reduction in freight rates, but that does not justify a misstatement of the facts. The only way for Mr. LaFollette to bring about the gigantic rate reduction he talks about is to reduce the wages of railway employees, and if he does that he will decrease consumption of the farmer's produce.

9. He said: "We mean the oil monopoly, which dictates prices on gasoline throughout the land."

The average pre-war price of gasoline was 16 cents; it is now 19 cents, an increase of about 19 per cent. Remember the average advance in all commodity prices was 45 per cent.

10. Mr. LaFollette charges that the Republican administration failed to enforce the laws against combinations and monopolies.

The fact is congress during this administration passed bills to correct evils attending meat packing and stockyards, and the dealing in grain futures. Under this same administration 49 suits were brought to check violations of the anti-trust laws, and 47 of them have been cleaned up; this is a greater record than was made in the previous ten years. The Federal Trade Commission has handled 30 per cent more cases of unfair trade practices during the present Republican administration than in any previous four years.

Senator LaFollette said: 9. "We mean to conserve those natural resources and to make available to the people at cost the light, heat and water which can be developed from the water power sites now owned by the government."

What Mr. LaFollette really wants is government development and operation of public utilities. The government has never been able to operate public utilities as cheaply as can private enterprise. What Mr. LaFollette means, but is afraid to say, is socialism.

The federal water power act, in force since 1920, insures permanent public ownership and control of power sites on public lands and power privileges in navigable and international streams, which contain 85 per cent of the water power resources of the country.

Mr. LaFollette did not on this occasion mention his proposal of two months ago about government ownership of railways, nor his proposal that congress should override the Supreme court. Under government ownership of railways would he give employees the right to strike and disrupt all transportation whenever they wanted an increase in wages, or would he suppress strikes among government employees and thus thrust all of the railway employees in the country into entire subjection to congress for their fundamental living standards?

In the case of the plan to let congress override the Supreme court, it would be interesting to know whether the various minorities in the United States are prepared to sacrifice their right to freedom of speech under the present Constitution and subordinate such right to the will of a congressional majority.

New York's Systematic Growth.
A remarkable forecast of population of New York is brought to light in copies of the Scientific American for September 8, 1920. A statistician for the manual of the common council shows the population of the city to increase until 1905 would have made the population of New York 5,257,493, a figure almost in accord with the census of that time.

Bring the children to Merry-Go-Round. 21octd2.

Rich Rhine Country.
Strange to say, the fine grapes are grown on the eastern slopes of the Rhine and the choicest varieties, as Johannisburger and Steinberger, are produced higher up the river, south of the Rhine province. It is, nevertheless, the land of the vine, especially the Moselle valley. The substantial claim of the province is its mineral wealth.

Didn't Care Much
Barly North-Countryman (the "proud" winner of a particularly insignificant cup)—"Yes, I've won coop, and if any one wants drink because I've won coop he can have blinkid' coop instead!"—Humboldt (London).

No need of a doctor. Ride the Whip during the Pumpkin Show. 21octd2.

EDWIN D. RICKETTS

Republican Candidate for Congress

My record in congress for service to one and all alike is generally known by the electorate of this district. If returned to congress by your suffrage, I will render faithful and conscientious service to all.

I am for the actual and substantial reduction of taxes and real and effective economy, and for such legislation as will advance, promote and protect the interests and welfare of the common people.

In my judgment there should be less politics and more efficiency in official service in the congress of the United States.

The people deserve the highest quality of public service from their representatives in congress, and if elected my time and ability will be devoted to the advancement of their welfare and the protection of their interests. I will appreciate your support and influence.

EDWIN D. RICKETTS.
